Purely Business!
The columns of a newspaper represent a cash account on every page. To give advertising "notions" more than their fair share of the business, is to give the advertiser a false estimate of business concerns. Its columns are not a place for "notions" or "advertisements" should be paid for, no matter in what part of the paper they appear.

Seven coastboats and a barge loaded with coal were sunk near the Apollo coal mine of C. Jutta & Co. above Pittsburgh. A rapid rise in the river caused the fleet to break loose, and it crashed into the fleet of John A. Wood & Son, sinking one boat owned by the latter. Five of the boats went over Dan No. 4. Jutta & Son's loss is \$100,000 and John A. Wood & Son's \$1,500.

He was himself a sinner, sinking to the lowest grade, but was saved seven years ago by grace, and is now in the vanguard for all time. The Y. M. C. THE United States customs receipts
Wednesday were \$1,719,737, the highest
point reached since the new tariff
went into effect. "The Dingley Bill"
all right.

One by one the strongest and most
highly-respected men of the Democratic
party are being driven out of that
organization by the "rule or ruin" sil-
ver element. Their latest victim is
Senator Mills of Texas, who has been
compelled to abandon his candidacy for
re-election because of the adoption of a
rule excluding from the primaries all
who refused to support Free-Silver in
the last National campaign.

SENATOR GOEBEL prepared and had
passed his infamous Election Law upon
the pretext that there had been frauds
in the Eleventh District. Into which
Democratic Legislatures have "gerry-
mandered" nearly all the Republican
counties in the state.

In Congress a few days ago Repre-
sentative DAVID G. COLSON of that
District presented a copy of the Goebel
Bill, and had this to say about the
alleged frauds:

"We never heard Democratic politi-
cians in Kentucky say anything about
election frauds in that state until after
the state had given its majority to the
Republican candidate for Governor in
1895 and to the Republican Presi-
dential Electors in the election of 1896.
The District in which I live gave the
Republican candidate for Governor in
1894 a majority of 12,988. In 1896 it
gave the Republican Presidential Elec-
tors 14,383 majority, an increase over
the Republican majority of 1895 of
2,395. It is to this increase in the Re-
publican vote of the Eleventh Congres-
sional District, which I have the honor
to represent on this floor, that the
Democrats of Kentucky point to support
their charge of fraud in the election of
1896—the charge that Kentucky was
stolen by Republican managers in that
election.

"Now, Mr. Chairman, in connection
and as an offset against the increased
majority given by the Eleventh District
in 1896, I want to make a statement as
to the increase in the Democratic vote
in the First Congressional District of
Kentucky. In 1895 the First District
gave HARRIS, Democratic candidate for
Governor, 13,167 votes. It gave BAUD-
LEY, Republican candidate, 8,658 votes,
a Democratic plurality of 3,509. In
1896 it gave BAXTER 25,520 and McKE-
NAY 13,204 votes, a Democratic plurality
of 12,316, a gain in plurality over the
previous year of 9,807 votes. I use the
word "plurality" because there were
other candidates voted for. In refer-
ring to the Eleventh District, where
Democrats charge these frauds were
perpetrated, they say nothing about the
First District, where there was an in-
creased Democratic majority of more
than 9,000 votes."

It was rather unkind in those Au-
gusta, Ga., people to announce the sale
of their new bonds at 3 per cent. in-
terest just as Mr. BRYAN was visiting
the state to persuade the people that
the country needs more money, even at
the risk of making it of an uncertain
value. It will be hard to convince peo-
ple that there is a scarcity of money
supply when cities are able to cut their
interest in half, as is the case with
Augusta, whose recent sale of \$100,000
worth of bonds, bearing 3 per cent.
interest, was made for the purpose of
refunding bonds bearing 7 per cent.

The record for counting money is held
by George W. Marshall, deputy in the
United States Treasury at New York. One
day recently \$2,000,000 in cash was
turned over to him to be counted, and he
performed the task in ninety seconds.
However, it must be said that the \$2,000,
000 was in convenient form for count-
ing consisting of 200 United States legal
tender certificates of the denomination
of \$10,000 each.

That the conditions of manufactur-
ing industries have improved since the
adoption of the Dingley Law is perhaps
not doubted by anybody, but it is at
least interesting to observe that the
failures in manufacturing lines have
fallen off very greatly since the adop-
tion of that measure. The failures
among manufacturers in the first week
of March, 1897, amounted to \$1,088,758,
while those of the first week of March,
1898, under the Dingley Law were only
\$480,074. The total failures in the
United States in the first week of
March, 1898, amounted to \$1,770,592,
against \$2,647,445 in the corresponding
week of last year.

T. H. PURYEAR,

One of Paducah's Leading Business Men
Commits Suicide by Shooting.
PADUCAH, Ky., March 21.—T. H. Pur-
year, one of city's leading men, a
large tobacco dealer, banker, manufac-
turer and identified with other indus-
tries, shot himself Saturday morning
and is now believed to be in a dying
condition. Two doctors are with him
but give no hope. He had been ill
a week.

Mr. Puryear died at 8:30. It was un-
doubtedly suicide. He had been ill,
but was able to be up Friday. Heavy
business losses and sickness explained
the cause. Puryear was a native of
Virginia, whence he came with Clar-
ence Richardson, was riding on Tate's
Creek pike, when their horses be-
came frightened and began to run. Miss
